

Active Weather Pattern Continues

May 24, 2024
4:25 AM

Into the Weekend

Key Messages

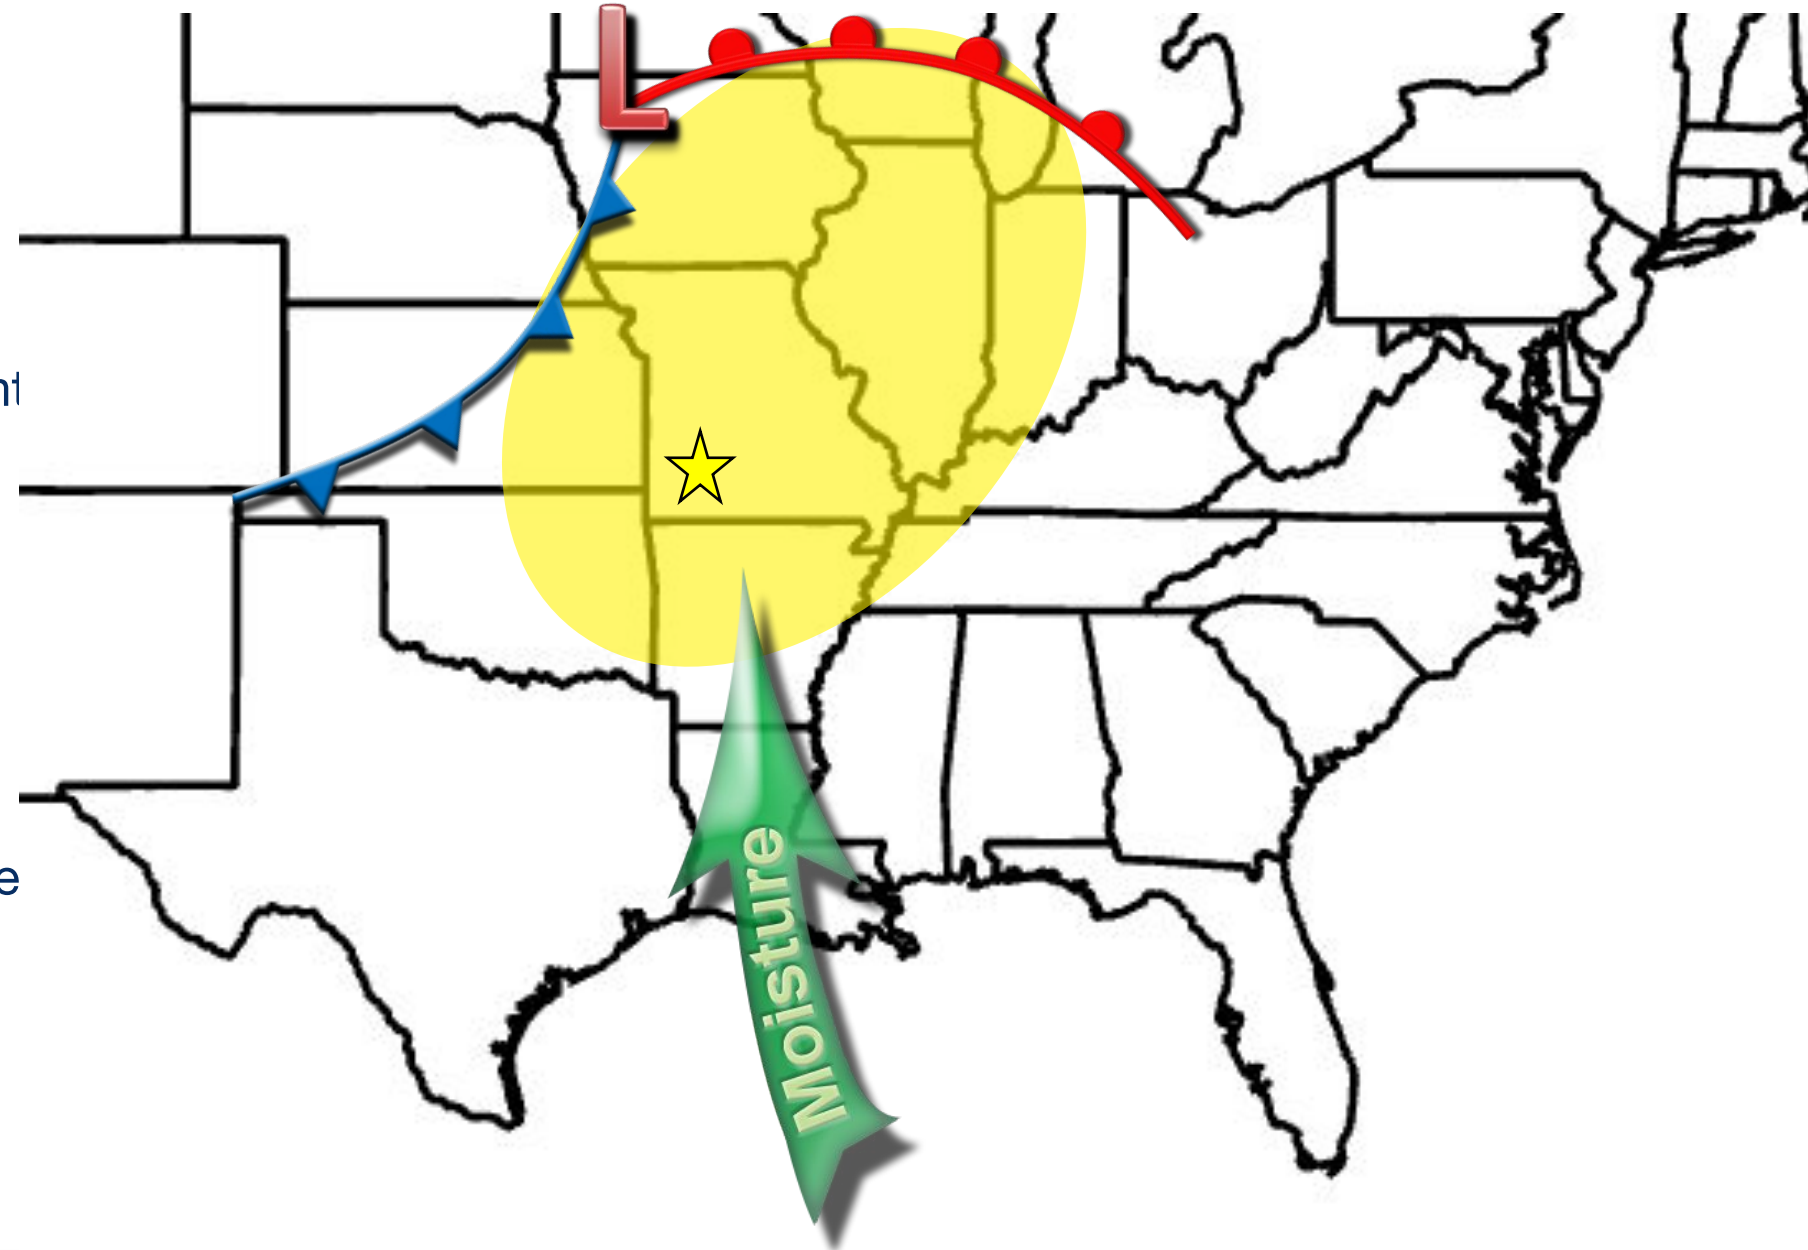

- **Today:** Strong to severe thunderstorms will be possible as early as this morning, with the best chance of severe weather this afternoon and evening.
- **Saturday into Sunday:** Organized severe thunderstorms appear possible late Saturday night into Sunday, though uncertainty in timing—and therefore areal extent of threat—remains.

NEW Important Updates

- Timing of storms on Saturday night looks to be late evening into the overnight hours.

	Tornado	
	Hail	
	Wind	
	Flooding	

Memorial Day Weekend Severe Weather Outlook

May 24, 2024
4:25 AM

Keep up with the Forecast!

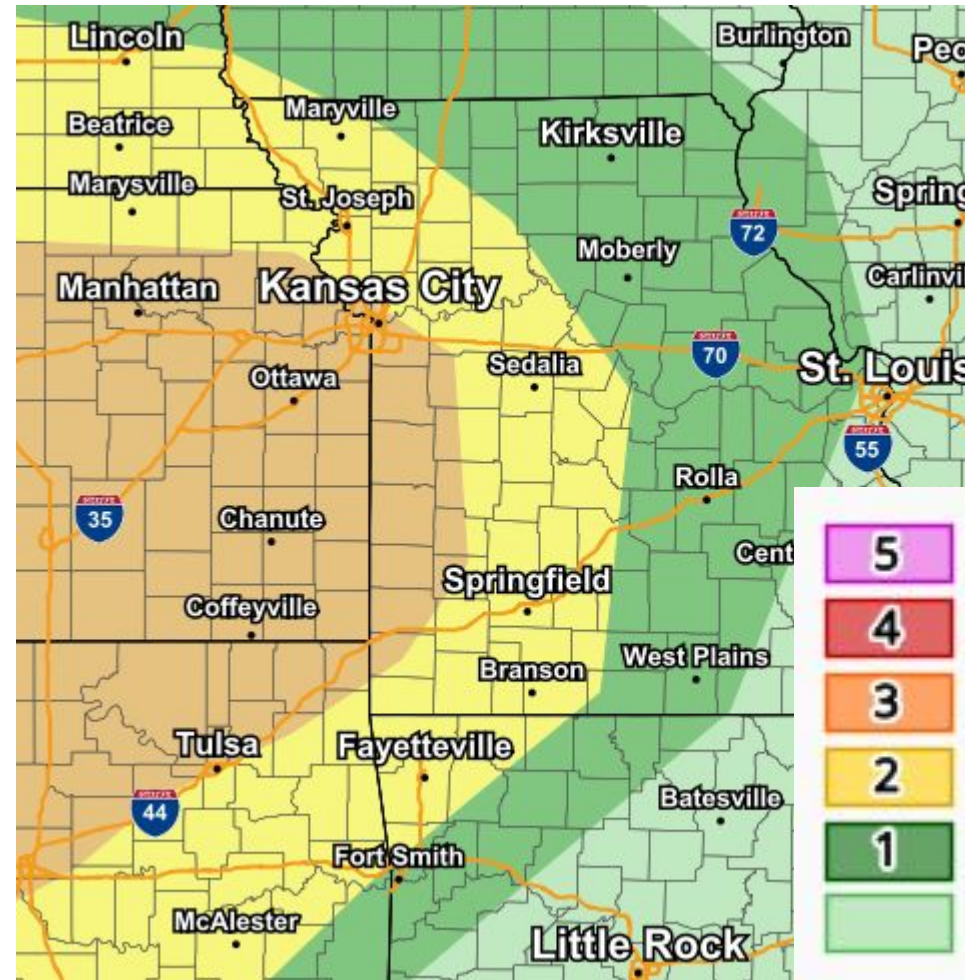

What We Know:

- A strong upper-level disturbance will move across the central U.S. on Saturday and bring the potential for organized severe weather.
- The highest chances for severe storms in our area is late Saturday night into Sunday.

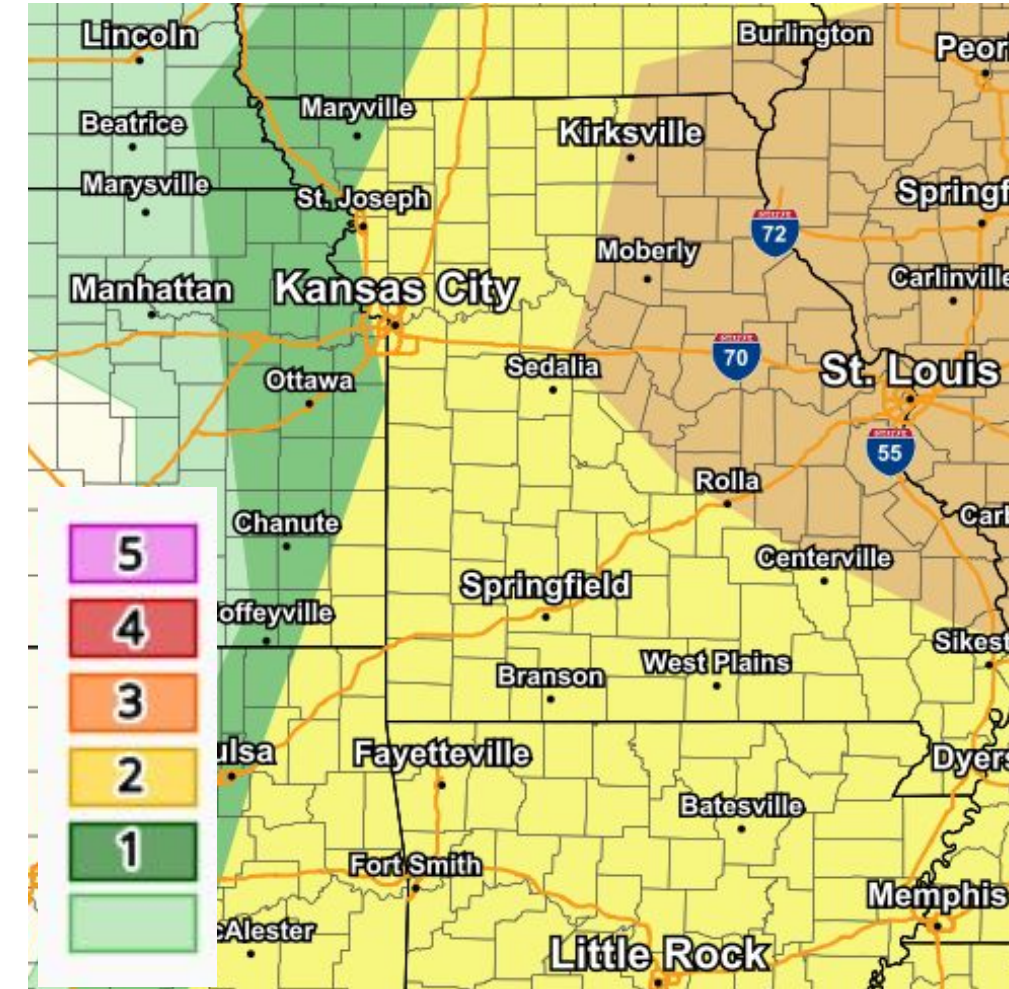

Remaining Uncertainties:

- Exact timing will be key in determining the extent of severe weather and where the greatest severe risk will set up.
- Specific severe hazards will continue to become more clear in the coming days.

Saturday

Sunday

Late Saturday night into Sunday
