RP called and stated they are staying at an air b&b and the neighbors dog keeps coming up. RP contacted air b&b homeowner and the homeowner contacted the neighbor. The dog was called home but moments later came back. When the RP went to take a walk with her small child, the dog came up and put his mouth around the child's arm and started acting like he was wanting to play or wanting the child to stay. He wasn't being aggressive, but he acts timid and shy when the adults are trying to talk to him. RP also stated that she has 2 of her own dogs there and one doesnt like other dogs, Stated that they haven't tried to fight and she has been able to keep them seperated, however her big concern is the neighbors dog putting his mouth on the child. She states she doesn't know the dog so she isn't comfortable with him putting his mouth on the children. She contacted the property owner again (while I was on the phone with her) and moments later the neighbor came over and she got off the phone with me. She said that she would call back if there were anymore problems
