He stated that the driver let him out but was complaining that he didn't have any brakes. And said the guy took off. At first he stated that he thought the driver came up towards gainesville then he stated that he was wrong and the driver went back towards mountain home. When I asked what his name was he asked "what does that matter" and then the line went dead. Not sure if he hung up or if he just had bad service. Called BXSO and let them know of the call and what the caller has said. RP did not give a discription of the vehicle, and the line went dead before I had a chance to get any more information. The RP is going to go to the WFD with his spare key and pick up his car, then wants to bring it to the office so a deputy or the K9 can search it to make sure there aren't any drugs or anything illegal left in the car.
