RP states that people, 2 or 3, were around his house all night. He states that there is a person that stood at each corner of the house and grabbed the gutters and was shaking them. He states that there was another male who tapped on the house and then started banging on the gutters to make loud noises.

He says he can see their shadows as they walk around the house. He said that he could hear them walking in the woods about 8:30 this morning. He yelled at them to go home. RP states that he did put up cameras but has yet to catch them on camera. He would like extra patrol at night in attempts to catch the people. Believes that they want him out of his house.

He would like a call back, states that he isn't making it up, he can tell the difference between a deer and persons footsteps. RP states his wife doesn't hear it because she has a CPap machine. He is giving permission for deputies to park anywhere on property and they are welcome to walk the property.
