Presents

# ***MAINTENANCE & RELIABILITY FEATURING THE SKILL BOSS TRAINING SYSTEM***

Sponsored by:

**June 5, 2026  
11:30 AM – 1:00 PM**

**Ozarks Small Business  
Incubator  
408 Washington Avenue  
West Plains, MO 65775  
*Lunch will be provided.***

Learn about the on-site maintenance instruction we offer at this introductory session. Our Maintenance & Reliability training is designed to bridge the gap between classroom knowledge and real-world competence.

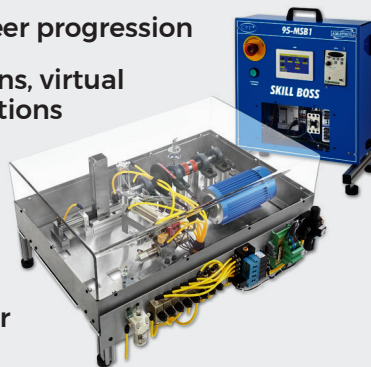

We incorporate the Skill Boss machine, which replicates more than 60 essential tasks, providing a platform for technicians to practice and validate their skills in a controlled, realistic environment. Training objectives include:

- Enhancing troubleshooting capabilities
- Reducing maintenance-related downtime
- Providing a foundation for career progression

Formats incorporate online lessons, virtual exercises, and on-site demonstrations at a laboratory workstation.

Curriculum encompasses:

- Electrical Systems
- Pneumatic Systems
- Hydraulic Systems
- Programmable Logic Controller (PLC) Systems

Elevate your organization's skill development with impactful on-site training. Sign up for our informational session to learn more, or contact your area Business Manager at 800-956-2682.
