she was going to commit suicide and that she had taken IV gel. Rp states that she could not get in contact with the female. The rp could not give an address and all she had was the zip code 65676. Rp could only provide her name, number, and zip code. Dispatch informed rp that they could not send anyone out for a wellbeing check on the female without having an address. Rp argued that dispatch could ping the internet service she was on which is sparklight. Dispatch informed rp that they are not able to do that but that this will be put on record and that is all we can do. After getting off the phone a manager from 988 called saying that the worker said that dispatch stated that we could not help and hung up on rp. Dispatch advised manager that they did not hang up on her but did advise that they cannot ping the address. Manager asked about pinging the number but dispatch advised the cannot do that either and asked if the manager would like to speak to someone else to get someone else's opinions. Manager said that would be great so she got transfered over to another dispatcher and she was told the same thing and that we would put this on record.
